Comment Suggestion

Loved it. Great time. Fostered healthy discussion and debate and stayed engaging. I don't think philosophy courses should require papers given the nature of philosophy but that's a personal gripe.

Tiina is one of the best professors I have had at Penn although she is just a masters student. She really engages the class by offering unique examples and challenges us to think outside the box. In addition, she brought us to both the ICA and the materials library in the Fisher Library in order to really encourage us to see how we can apply what we learn in class to other fields. This is one of the most enjoyable classes I have had my entire 4 years at Penn and hope that Tiina can keep teaching this course!

Tiina has been one of the best instructors I have had at Penn (as a grad student!) and the course was structured wonderfully. My previous philosophy courses at Penn have had a challenging discussion environment, and Tiina was able to break through this. Seminar discussions were free-flowing and exceptionally interesting, yet smartly curtailed and guided by the instructor. Commmunication between the students and instructor was casual, frequent and instructive, which helped me get more out of the course. Exceptional course slightly outside of my interests, but I'm so glad I sprung for it.

Tiina was an excellent instructor and I enjoyed the class! I learned how to read and write philosophy, and I now plan on taking more philosophy classes for my major. I really hope Tiina teaches another philosophy course while I am at Penn.
